Thoroughbred Aviation Partners with MRO Insider

New aircraft owners now have a dedicated page on the MRO Insider app

Michigan – October 11, 2022 – All aircraft delivered by Thoroughbred Aviation will now come fully enrolled with MRO Insider. This provides the operators with domestic and international AOG coverage as well as scheduled maintenance, FBO, parts, and GSE search capabilities directly through the MRO Insider app from day one.

Nathan Winkle, President of Thoroughbred Aviation explained "Our commitment to the clients who have trusted us with their transactions extends past the actual closing. We want them to take delivery of their aircraft and feel confident that it is ready for that inaugural trip anywhere in the world. The value added by MRO Insider reinforces that commitment."

"Nathan and his team at Thoroughbred have a unique no surprises approach to buying and selling aircraft, which includes flat transaction fees and a transparent process that has proven beneficial to their client's bottom line," Andy Nixon, President of MRO Insider stated, adding "We are excited that Thoroughbred added us to their new owner packet so we can provide a quick, time-saving method when it comes to business aviation services."

Aircraft operations are dependent on modern approaches to obtaining maintenance services whether it is an AOG event or scheduled. By including this support from the date of delivery, Thoroughbred Aviation is confident that new owners and operators are in good hands.

About MRO Insider

Founded in 2016, the MRO Insider app allows users to 'ping' service providers based on the current aircraft location, eliminating the redundant phone call and email process. The platform currently has over 2,700 registered tail numbers and over 420 provider locations. For more information, contact Andy Nixon at andy@mroinsider.com.

About Thoroughbred Aviation

Thoroughbred Aviation, LLC.® was founded 2016 and offers a dedicated and comprehensive approach to aircraft transactions and management, where integrity and pedigree are at the heart of every interaction.
